

Open Space Task Force:

Consensus-building for San Francisco's open space in the 21st Century

Shape the Vision | Imagine the Future | Chart the Steps | Secure the Future

In the second part of this consensus building process for San Francisco's 21st Century open spaces, Task Force members will be asked to imagine and explore ideas for five key opportunity areas: **Urban Barriers, Dense Neighborhoods, Waterfront, Dynamic Programming and Financing Values**. These focused visioning sessions will be informed by the proposed 'guiding principles' and 'definition of open space' with the goals of (1) identifying these visionary yet achievable ideas and (2) consider these ideas for the update of the General Plan's Recreation and Open Space Element (ROSE).

ROSE: Bay Region | Citywide System | The Shoreline | The Neighborhoods

Next Task Force Meeting - July 10th: Downtown, Wetland & Natural Areas, Greenways & Green Streets, Governance Structure, and Financing Mechanisms
